GENERAL INFORMATION

Customer Purchase Orders

We recommend that our customers use unique purchase order numbers for each order submitted to TIMBERCRAFT. You are also welcome to supply us with the job ID. This information will appear on all documentation including ID labels on drawer bottoms. Furthermore we suggest that our customers use TIMBERCRAFT order forms when submitting requests for quotes or orders. Utilizing Timbercraft order forms assists us in accurately planning and producing your order with the least amount of delay.

Order Acknowledgements

TIMBERCRAFT acknowledges all orders and quotations via fax or email. Quotes or order acknowledgements are faxed/ emailed back for review and signature. Orders are usually released into production the day after we receive your signed acknowledgement confirming your review and accuracy of data.

Order Changes / Cancellations

Once orders have been released into production they cannot be changed.

Payment Methods

Due to the quick turnaround of your custom drawer orders, TIMBERCRAFT requests 100% prepayment prior to releasing into production. We accept all major credit and debit cards, and E-checks.

Sales Tax Information

We are required by Connecticut law to add and collect sales tax from customers doing business in the State of Connecticut. To be exempt from this tax TIMBERCRAFT must have on file a completed copy of a customer's "Sales & Use Tax" certificate. A resale tax ID # alone is insufficient for tax exemption status. For your convenience we have included a copy of the required form in this brochure. If not on file we are required to add Connecticut's sales tax to your invoice. This pertains to Connecticut customers only.

Shipping Methods And Options

TIMBERCRAFT has negotiated favorable discounts with selected package and LTL carriers depending on region. TIMBERCRAFT will choose the most economical means for transport. All shipments will be shipped prepaid and the charges will be added to the customer's invoice.

Historically, we have found the primary reasons orders get delayed are:

- Unsigned or unreturned order acknowledgement.
- Order information that is missing or unclear. (This is why we strongly suggest utilizing Timbercraft Order Forms)
- Payment related issues, incomplete shipping information.
- Timbercraft is unable to reach a contact person to resolve the above issues. It is always helpful to have an email and cell phone number available should we need to reach you with questions that could delay the processing of your order.

Damages-Shortages-Remakes-Underestimates:

When any of the above issues occur please contact our office ASAP in order for us to work out a solution as quickly as possible. Freight damages must be noted with carrier upon receipt of goods. If inspection is not possible it is best to sign bill of lading with a notation stating "subject to inspection" clearly on BOL near your signature. Timbercraft must be contacted within 24 hours of receipt of damaged drawers.
